

# Learning for everyone

Make the most of being part of u3a by getting involved with the many free initiatives and events offered across u3a.

Expand your learning as an individual or get support to develop local interest groups.

## Expand your interests

Supplement your learning and expand your thinking with a range of **online events** – available to all members via Zoom. Join the members sharing their passions and talents online.

Take part in a **national initiative** – your chance to be inspired by and collaborate with other members. Opportunities include creative writing competitions, photography and art challenges and much more.

## Expand your subject

**Subject Networks** bring interest groups together across u3a borders. Expand your learning by pooling resources, discussing ideas and creating new opportunities.

u3a's 90+ **Subject Advisers** are dedicated to sharing their enthusiasm for their subject with any interested u3a member. Contact them for resources, with ideas or for help starting a group in your u3a.

## There's so much more
